

I'm joining the myriad fair-minded people around our nation who find this risky and illegal move on the part of Sinclair Broadcasting to be both unconscionable and undemocratic.

It is the responsibility of the FCC to keep our airwaves balanced, respectable, respectful and sane. This company intends to cross these lines to bolster their personal, political and corporate interests. Please ensure that these tactics are discouraged in the future by rejecting their application for license renewal as they are clearly flouting the existing rules and regulations implemented by the FCC.

Thank you for your kind attention to my concerns.
